

Next Generation Solutions Provider

Iron Bow Technologies and GOVMVMT

Contract Number: 4400012307 | Lead Agency: Fairfax County, VA

Iron Bow Technologies helps organizations like yours bring together cutting edge tech, managed services, and strategic partners so you can achieve business outcomes. Whether those outcomes are mission-based, revenue growth, risk mitigation, reduced operating costs – or most importantly, an enhanced client experience, we can help. In addition to the trust we have in the market, our depth of technical expertise, global reach and strategic partnerships with leading OEMs as well as disruptive technology vendors uniquely positions Iron Bow to bring together the right solutions designed to ensure your success.

Why Iron Bow?

We are a leading global IT solutions provider dedicated to delivering innovation with integrity. Together with our experienced, OEM-certified engineers, we support the full product lifecycle from analysis and design through implementation and operational support. Our staff is experienced in design, integration, deployment and sustainment of complex multi-technology solutions that may include Networking, Unified Communications, Audio/Visual (AV), Voice over Internet Protocol (VoIP), Data Center, Video Teleconference (VTC), Wireless and Security solutions.

Iron Bow is an authorized reseller for over 200 major OEMs. Key partnerships include Cisco, Dell Technologies, Intel, HPE and HPI. Through our U.S. based Client Service Center (CSC), we can provide a variety of support options for your deployed solutions as well as, as-a-service, cloud, hosted or managed services offerings.

Key Partnerships

Why GOVMVMT?

GOVMVMT is a non-profit group purchasing organization that meets the highest industry standards while putting the public's interest at the forefront of everything we do. Each one of GOVMVMT's first-class suppliers has consciously joined our mission to create the most credible, ethical, and public agency-focused non-profit cooperative purchasing program in the country.

We help combine the purchasing power of public agencies from across the country into government contracts that are competitively solicited, evaluated, and awarded by an actual public agency – not a third-party organization. GOVMVMT's solicitations are based on public agency feedback that is gathered to identify opportunities to address traditionally challenging contracts or to provide efficiency through volumes of scale.
